MRS. ABBY SNELL BURNELL AT PRESBYTERIAN CHURCH

"Menarche," a story of the Life of an Indian Woman Belonging to the High Caste Hindus, Will Be Told This Evening at Presbyterian Church By Noted Traveler.

The story of "Menarche" a type of high caste Hindu woman, will be told this evening at the Presbyterian church by Mrs. Abby Snell Burnell, who arrived recently in Houghton. Mrs. Burnell, in her character impersonation gives a most graphic and realistic portrayal of life in India, and she tells her fascinating story with unusual personal and dramatic power.

Mrs. Burnell is the wife of Prof. Dagnall, long connected with Amherst college and a granddaughter of Rev. Dr. Thomas Knell, pastor at North Brookfield, Mass., for sixty-three years. She has lived in India a number of years and has adopted a most unique way of picturing life of the women of that country. In her entertainment she dresses in the costume of a Hindu woman and speaks in the first person, weaving together in the form of an interesting story such facts and conditions as she became familiar with during her sojourn in the Indian Empire. Her story is artistic in construction and so true to life that many women are listening to a real Hindu woman.

Since Mrs. Burnell began impersonating this Hindu character, she has attracted the story of "Menarche" thirteen or fourteen hundred times. The story has been heard in churches of at least twelve denominations. Members of Young Men's and Young Women's Christian associations have been entertained by this remarkable woman and in many schools, both public and private, has Mrs. Burnell told her story. She has received the best of press notices everywhere she has talked.

No admission is to be charged at the church tonight, but a collection will be taken to defray some of Mrs. Burnell's expenses. The object of her visit is to interest people in the need

of missionaries in India.

One of the great evils in India is the caste system. According to this organization, which is upheld by all the religious institutions of the natives, every person must follow in the footsteps of his forefather. There is no such thing as progress. If one's father is a carpenter, the succeeding generations must be carpenters. Furthermore, following generation must accept the ideas, habits and views, both religious and otherwise, of its predecessors. It is to break this terrible custom that missionaries are being sent to India.

SIXTY NEW RESIDENCES.

Estimated That That Many Houses Have Been Built During Summer. Sixty new dwellings have been built in Houghton during the past year according to an estimate of Street Commissioner Martin Foley who has the work in charge of installing a water connection for each of these structures. The beautiful fall weather the copper country has been enjoying has greatly encouraged the home builder, and several residences are now being started, undaunted by the fact that winter will be here before it will be possible to effect a completion. While Houghton's building boom has not been so evident this summer, it is because of the fact that it is more scattered and has not been confined to any particular district.

ARE BUILDING WALK.

South Range Village Repairing Walk From Range to Trimountain. Contractor James Andrews of South Range is busy repairing the sidewalk extending from the limits of the village of South Range to Trimountain. The work is being done at the order of the village council. The walk was built three or four years ago and is now badly in need of repairs. It was originally built by the South Range merchants. There is talk of extending the walk a half or one mile farther to Trimountain but this will probably not be done, if at all, till early next spring.

The annual ball of the Hurontown fire hall Nov. 2.

COMMERCE THROUGH PORTAGE LAKE WATERWAYS IN OCTOBER

Geo. H. Banks, Engineer in Charge of the Portage Lake Waterways, Gives Out Monthly Statistical Report — Greater Tonnage During Past Month Than Same Time a Year Ago.

Geo. H. Banks, engineer in charge of the Portage Lake waterways, today gave out his statistical report of the total tonnage freight of different classes through the canal during the past month of October. This statement shows that October 1920, has resulted in greater traffic through the canal than for the same thirty days in 1919.

The total number of vessels which passed through the canal were in number, 310, while October 1919 witnessed only 287 boats through the Portage lake waterways, just a difference of 23. The total tonnage also during 1920 in the month of October exceeded that of last year, the figures being 415,821 and 377,351 for 1920 and 1919, respectively. The total cargoes of the vessels for the past month was 302,099 while a year ago, the freight carried providing a total cargo figure of 228,210. Two hundred and thirty passengers passed through the canal on boats bound for the head of the lakes while in the previous year one hundred and seven, less than half as many, went through the canal during October. The only way in which the past month of October was outclassed by the figures of the same month in 1919 is in number of passengers bound for down the lake ports. Only thirty were recorded this year while over twice as many, 83, are numbered in the report of last year.

Greater amounts of both soft and hard coal were carried up by boats passing through the canal this year than last. The records for the two years in this kind of cargoes are: 1920 hard coal 22,667; 1919 hard coal 12,000; 1920 soft coal, 192,151; 1919 soft coal, 148,000. The amount of copper carried up also exceeded that of a year ago, figures being: 1920, 2,530; 1919, 1,772.

FIRST NON-RESIDENT LICENSE.

C. J. Pooler of Chicago Pays \$25 for Permission to Hunt. The first non-resident license to hunt, to be granted by the county clerk, was issued yesterday to C. J.

Pooler of Chicago. The fee which had to be paid in order to secure a license was \$25, while for a license of the state the cost is only \$1.50. An application for this license was made through one of the county clerk's deputies, A. C. Stewart of Soudaw.

Two more hunters have applied and have been granted licenses. They are Mrs. L. M. Leadbetter and Mrs. Fannie Leadbetter, both of Houghton. The other three who have received their permits are Mrs. Chapman (Laurin), Mrs. Fries of Houghton and Mrs. Stambaugh of Kenton.

Applications for the permits are now coming in at nearly the rate of 100 a day. The list has now grown to nearly five hundred.

NATURALIZATION APPLICANTS.

Three More Have Signed Desire to Secure Citizenship Papers.

Three more Houghton county residents have applied to County Clerk Richardson for full citizenship papers at the coming January term of circuit court. This makes the total number fifty. The three who filed their applications yesterday are:

Matti Caullina, a Finn, residing at Chassell, came to this county in 1899, entering through the port of New York.

Thomas Battle, of Kearsarge, has resided in America for the past thirty-seven years. He is of English nationality and entered this country through Norfolk, Va.

All desiring to secure full citizenship papers at the January term of court have till Saturday in which to fill their applications. This allows ninety days till the close of court which is the time decreed by a late ruling of the legislature as necessary before the granting of the papers. The number so far applied for is somewhat below the average.

EXPERT TESTIMONY HEARD.

Dr. L. M. Power is Vindicated in Suit in South Range Court. A verdict in favor of Dr. L. M. Power of Hancock against Charles Gekas was returned by a South Range jury in a justice court trial recently brought by Power against Gekas to secure payment for medical services rendered. Expert testimony was introduced in the case in favor of both the defendant and plaintiff. Dr. Abrams of Dollar Bay, Dr. Moore of Atlantic, Dr. Whitten of Baltic and Dr.

Paine of Baltic are the physicians called upon to state their view of the situation.

The case tried, involved Dr. Power's services to Gekas some time ago. Early in the fall, Gekas, it seems, fell down a stairway and medical aid was necessary. Dr. Power was summoned and during the course of his treatment, he made fifty-two visits to Gekas for which he submitted a bill of the same number of dollars. This amount Gekas objected to, claiming that a permanent cure had not been effected.

Dr. Power's statement of his case was that the cure would have been lasting if Gekas had taken his advice and not been so anxious to resume work as soon as a little improvement in his condition developed. After a deliberation of only ten minutes, the jury returned a verdict in favor of Dr. Power.

INDOOR FANS DISAGREE.

A meeting of those interested in the proposition of a South Range indoor ball league was held Wednesday evening but nothing was done as no agreement could be reached as to where the contests should take place. Atlantic, Trimountain and South Range each has a suitable place to play games in and the delegates from each of these locations refuse to listen to any proposal against their home town. Another meeting of the delegates is to be held next Tuesday evening when it is hoped some definite arrangements will be made.

TO CLEAN OUT DISTRICT.

South Range Council Instructs Marshal to Close All Resorts. The village council of South Range has inaugurated a sweeping crusade against the resorts of the "red light" district of that location and instructed he marshal to have all institutions in the tenderloin region shut down for all time. In particular, the marshal is instructed, under penalty of forfeiting his position, to see that a notorious resort at the west end of Trimountain avenue be closed.

The matter of building a sidewalk to Trimountain was discussed at some length by the village fathers at their recent meeting and it was determined to ask the Copper Range R. R. officials and the Houghton Lumber Co. to effect the construction of walks on the highway abutting their properties.

PREPARE FOR ANNIVERSARY.

Palestine Commandery Will Celebrate on Wednesday Evening.

Preparations are being made for the observance of the first anniversary of the institution of Palestine Commandery, Knights Templar, of Houghton. The anniversary will be commemorated by a banquet and social session to which all the knights of the district will be invited. A program will be rendered during the course of the evening. Toasts will be responded to under the leadership of Eminent Commander McLaughlin. This evening, the Red Cross degree will be conferred upon a number of candidates.

OFF TO MENOMINEE.

Houghton High School Football Eleven Ready for Semi-Finals.

The members of the Houghton high school football eleven, substitutes, coach and manager, and a few rooters, left this afternoon for Menominee, where the semi-final game for the high school championship of the upper peninsula is to be played. The winner of this contest will play Ishpeming one week from tomorrow for the upper peninsula championship.

A number of the high school players are members of the Light Infantry eleven which is to meet the Naval Reserve Sunday afternoon at the Hancock driving park. They will all return to Houghton in time to participate in Sunday's contest.

At the same time the Menominee and Houghton high schools are contesting for Michigan honors. Marinette, the sister city of Menominee, will play for Wisconsin state high school honors.

HOTON BREVETIF.

Harry Sharp, secretary of President McNair of the M. C. M., is moving into his new residence on Blanche street.

Works will be resumed by the arts and crafts classes at the Central school building tomorrow at 2 o'clock.

The annual dancing party of the Atlantic fire department is to take place this evening in the Foresters' hall, Atlantic. Klinghammer's orchestra of Houghton is to furnish the music.

Judge A. T. Streeter has withheld his decision in the suit for separate maintenance instituted by Mrs. Leonie Riel of Hancock against Oscar Riel for two weeks. He has ordered, however, that

Oscar Riel pay his wife \$25 for temporary relief during the two weeks. C. H. Primodig has occupied his new residence, on Jasper street, East Houghton, which was recently completed.

The Houghton council meeting, to have been held last evening, did not take place because of the absence of President Miller. It was postponed till Thursday evening of next week.

The manager of the Isle Royale band is planning a dance to take place under the auspices of the organization in the Atlantic Foresters' hall on Nov. 26. The following evening, Nov. 27, the band will entertain with a similar function in the Hurontown fire hall.

Frank Neely, who has been acting as key clerk at the Douglas house, has resigned his position there and will attend school.

Some amateur burglary affected an entrance in the Douglas house Wednesday night and before he left created quite a stir in the popular hotel. He prowled around the halls for several hours during the evening and about midnight was discovered by one of the servants under a bed. His screams aroused the guests but before the nocturnal visitor could be apprehended he had disappeared in the night.

Returns on the Houghton Village taxes have been made by Treasurer Wier to County Treasurer Houghton. Houghton is the second village in the county to make its returns. The total sum of delinquents amounts to \$2,515.75. The amount collected, \$23,911.02, has been turned into the county treasury.

Rev. A. B. Sutcliffe of the Houghton M. E. church Wednesday married John Bernadick of Houghton and Mrs. Mary Hirding of Lake Linden. The ceremony was performed in the parsonage.

F. L. Boers, superintendent of the Parkdale, Wis., plant of the DuPont Powder Co., inspected the new powder plant at Satoris this week. He was accompanied by F. J. Bayden of Houghton, local representative.

A license to wed has been granted by County Clerk Richardson to Samuel J. Sutterly of Calumet and Miss Loretta Bonithan of Bencon Hill.

Neurasthenia Test. According to an English court a test for neurasthenia is to make a man stand up, with head erect and eyes closed, and whistle. A neurasthenia subject, it is said, cannot do this.
